Our hotel, whose design is based on an ancient Japanese approach known as Wabi-Sabi, will not only impress you with its distinct appearance but will also ensure that you have a comfortable experience. The guest room building of our hotel is built in steps along the slope of the hills which makes our hotel's architecture distinct home.

wabi-sabi is often condensed to “wisdom in natural simplicity”.

A group of hikers is silhouetted against a backdrop of snow-capped mountains. The hikers are standing on a rocky ridge, looking towards the mountains. The mountains are covered in snow and have sharp peaks. The sky is clear and blue. The hikers are wearing backpacks and outdoor gear. One hiker on the left is taking a photo with a camera. Another hiker in the center is pointing towards the mountains. The overall scene is a classic mountain trekking scene.

The Annapurna Circuit is one of the greatest treks in Nepal, if not the world. This classic circuit trek is an incredibly varied and extraordinarily beautiful journey. Dramatic deep gorges, bleak high mountain passes, Buddhist temples, picturesque farming villages and all the major mountains of the Annapurna Massif.

A MAGICAL VIEW OF THE MOUNTAINS

Surrounded completely by Annapurna ranges, it gives an exemplary view of sunrise and sunset between the mountains.

Our hotel is positioned in such a way that our guests can enjoy the breathtaking views of the mountains from every nook and cranny of the property. We also have a rooftop terrace included in our property where you can chill along with a view of the mountains in front you.

The jewel of our crown at Sarangkot may be the pristine panoramic snowscape of the Annapurna Himalayas, but we don't want the enchanting vistas to be the only thing that you take back with you.

While many visitors venture off to explore and trek the Annapurna Region, we have made things easy by highlighting the most interesting facts about this mighty mountain range that greets you every morning from windows of Hotel Annapurna View.
